

SLOWorks

CAD & PRODUCT DEVELOPMENT

“CAD-lifecycle”

• IMPLEMENTATION

CAD–software purchasing and implementation creates the base for working development and design actions in the company. With implementation service you will...

- make sure that pc–devices are compatible and functional
- have basic settings set for the softwares
- have document templates created
- have fine tuned user interface and environment to work with
- all documentation about the starting situation, training, and update service for documentation

• TRAINING & TUTORING, where ever you are

It's hard to learn 3D–CAD by yourself. Take all SOLIDWORKS features to full use...

- basic and extended training
- new features and power user training
- customized training
- personal ON SITE–tutoring

Class training, click logo below for course calendar:

[cadpool oy](http://cadpool.oy)

• SOLIDWORKS ADD-INS

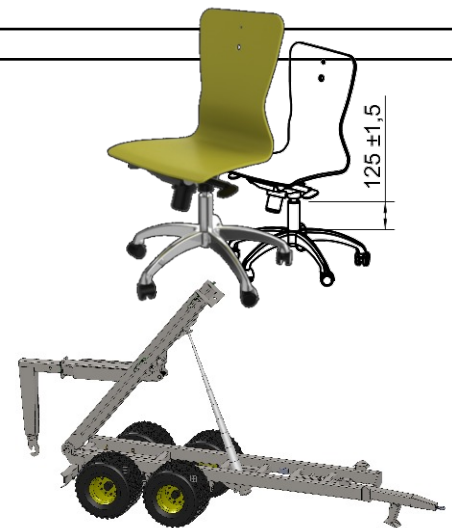

Get rid of the boring repeating phases in your work with CAD. Visual Basic .NET, VBA, SOLIDWORKS–macros

- small Add–Ins's for SolidWorks, macros, check out more www.sloworks.fi/shop
- Parametric “design automates”

• PRODUCT DEVELOPMENT & DESIGN

- Furniture
 - Chairs, tables, sofas, cabinets...
 - auditoriums
- , machine, mechanics...etc.

Ideas, drawings for production, 3D–modelling, sheet metal, visualizations etc.

SLOWorks – services

PROTOTYPES & 3D-PRINTING

- PROTOTYPES
 - Own carpenters shop, metal
- 3D-PRINTING, CNC
 - Fast and low cost prototypes, scale models etc.
 - Max. size for single part 275x230x210 mm, materials ABS and PLA in various colors (PLA is biodegradable starch based plastic)
 - CNC work space about 400x600x80mm, wood, plastics, Al, Cu, Brass

OTHER SERVICES

- HOME PAGES
 - For example with free software (Content Management System), Joomla, Wordpress, phpBB...
 - fast page updating that can be done anyone/anywhere after short training
 - service provider selection against need
- IT-HELP
 - for Windows environment, device/software installations, updating
 - you can do many tasks with free softwares, let's search for a proper one
 - small tutorings, guides, desktop publishing etc.

TOOLS

CAD – SOLIDWORKS user since -98, trainer since -01, ArchiCAD, Rhinoceros, Draftsight

Programming – Visual Basic .Net, VBA

PDM – SolidWorks Enterprise PDM, SolidWorks Workgroup PDM, SAP, SmarTeam, CustomWorks, CustomTools, Swit

SLOWorks – restfully effective
